Prepare for HIPAA Compliance

INSURANCE AGENT

Clients that sponsor a health plan must comply with HIPAA. Although HIPAA has been in existence for many years, most employers are unaware of their compliance requirements. **CD Callen** sees this as an opportunity to provide a value-add service to our clients that will differentiate us.

Callen Insurance has partnered with **Total HIPAA Compliance** (totalhipaa.com) to help our clients not only meet and maintain HIPAA compliance but, more importantly, to take a proactive approach in protecting their employees' health information.

Total HIPAA's compliance product, HIPAA Prime, is an easy to follow, cost-effective, online solution for your clients to quickly develop and implement a customized compliance plan. HIPAA Prime will satisfy documentation and training requirements for any size employer group at a price they can afford.

HIPAA PRIME™

Five simple steps for your clients to follow:

1. Train their compliance team
2. Complete the online Risk Assessment
3. Train their staff using interactive online video modules
4. Review their customized Security and Privacy Policies and Procedures
5. Implement their Policies and Procedures

ONGOING SUPPORT

Total HIPAA will continue to support them by providing updated documents, as HIPAA regulations are revised, as well as interim training modules that help them meet HIPAA retraining requirements.

THE BEST PART - IT'S AFFORDABLE

Pricing is based on the number of trainees in their organization and the number of sites. Payments can be made in automatic monthly installments.

Demonstrate to your clients that you respect their privacy by protecting their health information.

TAKE ADVANTAGE OF THIS VALUABLE TOOL!
